Re:U.S. Patent Application No. 09/744,622.

Dear Mr. Smith,

I am an inventor in U.S. Patent Application No. 09/744,622. I object to the assignment of this patent to Texas Pharmaceuticals Inc. or its successors. The assignment to Texas Pharmaceuticals was based on a contract under which Texas Pharmaceuticals was to pay me for the assignment. (Contract attached as Exhibit A). I object to the assignment because Texas Pharmaceuticals Inc. failed to fulfill its contractual obligation and pay the sum owed to me under the attached contract. I object to the assignment for a number of additional reasons, among them, the fact that the intellectual property that is the subject of the patent application was applied by Texas Pharmaceuticals and its agents in a manner inconsistent with U.S. and state law.

I am currently detained at the Federal Detention Center in Miami awaiting trial in Case No. 04-20250-CR-Jordan. Accordingly, I am currently not in a position to pursue any of these claims through counsel. If there is anything I can do to further these claims now, please let me know in writing.

Sincerely,

A handwritten signature in black ink, appearing to read "Nicholas Bachynsky".
